

# Greater Seattle Racing Pigeons Club

## Race Shipping Night and Knock-Off Procedure

### A. Shipping Night:

We shall have groups of four members flyers that will need to be at the club house half hour before the shipping time and set the crates on the carts and set water trays and fill with water (run the water for 2 minutes before filling trays)

Regular shipping starting time is 6pm, if you are not racing or be late for shipping, you must notify Race Secretary

Birds entry will be first come, first served, so put your module at clock table and put your name on the board

All flyer's module must be cleared of old races and training flights. If it is not cleared, you must notify Race Secretary

There will be no electronic chip assigning for bird, when the shipping starts.

Crate cleaning with new bottom paper will be crate owner's responsibility.

Watch the band number of entered bird on the clock

Race Secretary will notify release times by e-mail, phone, or club web suite."

Same four flyer members will stay late and will load the crates in Evergreen Truck when this arrives.

Before the race season will establish a list and schedule all these groups and if for some reason one member can't come to do his/her turn, it is member's responsibility to make arrangements with a different member to be replaced.

Once we start the shipping procedure, all the flyers shall actively help to crate the birds. Race secretary will designate a person to watch the entering throw clock, and a person who will stay by crates all the time and make sure each pigeon goes in the right crate.

At the beginning of the racing season we'll have designated crates and no birds from a different flyer we'll be enter in a crate without the owner of the crate approved.

### B. Shipping Truck return day:

Paul and his hired helper (\$20/race) will unload crates. If Paul is not available, he will call on racing members to help with unload.

### C. Knock-Off Day:

Race secretary and two flyer members will be minimum present at the knock off time. Immediately after knock off the results shall be posted on the "Pigeon Mall" or GSRPC web site. Also all the Club Race Reports ( Average Speed, Master Loft, Champion Loft, Champion Bird) shall be updated on the web site, every Monday after each race.

All knock off will be Monday at 5pm after a race, except for special events or instruction from Race Secretary.

If you are not going to turn in your module after flying a race, you must call the Race Secretary, so no one has to stay and wait for you to be counted in the race and also Race Secretary can print the race results. If you are going to be late or not coming, you must call within 30 minutes of knock off time or otherwise you will be disqualified from the race.
